National Security Integrators Adds Two New Integrators To The Group, Increases Coverage Throughout N. America

National Security Integrators (NSI), a group of privately held security integrators, is pleased to announce the expansion of our group by two new members. These members are WBE Security Control Systems and Advanced Cable Technologies. WBE's primary market is Northern California, including Sacramento. Advanced Cable Technologies will provide front-line coverage in both Michigan and Ohio. When asked why they decided to join NSI, both companies said that they were looking for a disciplined group of integrators that were focused on service and the needs of the client. "We are extremely pleased to add these two new members to our team," replied Alan Kruglak, President of NSI.

NSI Members

- Genesis Security Systems
- Advanced Electronic Solutions
- Security Solutions
- ISS
